

EXTRA VIRGIN ORGANIC COCONUT OIL

THE STORY

SFC empowers women and communities in Ghana, Sao Tome, and Cote D'Ivoire by partnering with local cooperatives to produce organic, fair-trade coconut oil. These collaborations provide a sustainable income source while reducing reliance on environmentally harmful practices like deforestation, directly supporting conservation efforts to protect endangered primates. By working with local Community Resource Management Areas (CREMAs), SFC helps monitor and sustain conservation activities at the grassroots level.

SFC's partnerships with West African Primate Conservation Action (WAPCA) and NOE promote community-based organic coconut oil production, safeguarding the Kwabre-Tanoë Forest, a 14,500-hectare transboundary biodiversity hotspot. This forest, shared by Ghana and Cote D'Ivoire, is the last refuge for critically endangered primates such as the Roloway monkey, White-Naped Mangabey, and Miss Waldron's Red Colobus. Through its collaboration with local CREMAs, SFC ensures long-term environmental monitoring and conservation to protect this irreplaceable ecosystem.

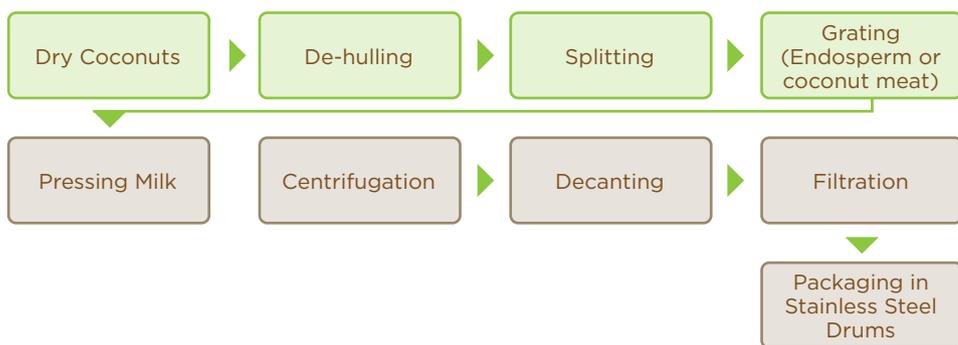

METHOD

SFC's extra virgin organic coconut oil is produced using a **wet-centrifugation method**. Organic coconuts are dried, dehulled, split, and grated. The grated coconut is pressed to extract milk, which is then filtered. This filtered milk is spun in a centrifuge, separating the lighter oil from heavier water and solids. The oil is skimmed off, filtered again, and bottled, resulting in a pure, high-quality product suitable for cosmetic and food applications.

EXTRA VIRGIN ORGANIC COCONUT OIL

PROCESSING

DESCRIPTION

INCI Name:	Cocos Nucifera Oil	Shelf Life:	24 months from date of manufacture
CAS Number:	8001-31-8	Shipments methods:	190 kg Drums ISO Tanks 920 kg Intermediate Bulk Containers
EINECS Number:	232-282-8		
REACH:	Exempt		

PRODUCT SPECIFICATION FOR ORGANIC EXTRA VIRGIN COCONUT OIL

Chemical and Physical Parameters

Analysis	Comment	Specification	UOM	Based on method
Acid Value		2.0 max	Mg KOH/g	DGF C-V 2 (06) 2012 (a)
Free fatty acid	as Lauric Acid	1.0 max	%	DGF C-V 2 (06) 2012 (a)
Peroxide value		6 max	Meq O ₂ /kg	DGF C-VI 6a I (05) (a) 1
Iodine value	Calculated	10.0 max	g/100g	DGF C-V 11d(14) (a) 1
Refractive Index	as ND40	1.4470 - 1.4500 max	n/a	Ph.Eur. 20206 (na) 1
Appearance	White-clear when in liquid form	-	n/a	
Unsaponifiable Matter (Diethylether)		100	%	MP-01330-NL ISO 3596:2000
Pesticides		n.d	Mg/kg	(a) 1

USES

Extra virgin organic coconut oil is a versatile natural ingredient with numerous uses in cosmetics, skin, and haircare. It's a fantastic moisturizer for both skin and hair, helping to combat dryness and add shine. Additionally, it can be used as a makeup remover, hair conditioner, or even as a base for homemade beauty products.
